

Life Challenge Program Handbook

Life Challenge is a place of new beginnings and life change. Men and women come to Life Challenge because they want help in letting go of destructive and unproductive lifestyles, help with addictions, and help in building a new life of integrity and purpose. We believe that life change comes, first and foremost, through a personal, life-transforming relationship with Jesus Christ. Our goal is not merely seeing men and women become clean and sober, but to develop life patterns of integrity and godly character through the application of Biblical principles. We are here to come alongside residents through the structure of the program, as well as being here to encourage, correct, instruct and help them in any way we can.

This program is hard and highly structured; change is hard! There are expectations and guidelines that residents are expected to follow in this process of life change. There is a rigorous schedule from morning until evening in which residents are expected to fully participate. The following list highlights some key expectations for all residents.
